FREEDIVE X DAHAB

WELCOME TO FREEDIVE DAHAB & THE

BLUE HOLE

THE MECCA OF FREEDIVING!

About Freedive Dahab

Freedive Dahab is one of the very first Freediving Centres in the world started in 2003 by former freediving world record holder Lotta Ericson. In 2010 Freedive Dahab became the first SSI Freediving Instructor Training Center in the world and certified thousands of all level freedivers and hundreds of instructors.

Our freediving center is located close to the Lighthouse Bay, which is the heart of Dahab. Most of our courses take place here. We have a big and comfortable AC classroom, a spacious equipment room and a big outside terrace, so we have plenty of room for big groups. We have outside showers for the summer and 2 hot showers inside for the winter, and Free wi-fi for our guests.

We organize several events and packages throughout the year, such as [Freediving Training weeks](#), [Combo weeks](#). Our most popular packages for long stays are the [Beginner to Instructor package](#), through which we have certified hundreds of competent instructors over the last few years, and the [Freediving Master](#), for who wants to dedicate 2 – 4 weeks or longer to freediving training.

We also arrange events on request, like specialized private training, sled training (No-Limits and Variable Weight), national competitions, record attempts, instructor courses.

Dahab and the Blue Hole

Dahab is a small town situated on the southeast coast of the Sinai Peninsula in Egypt. Formerly a Bedouin fishing village, located approximately 80 km northeast of Sharm el-Sheikh, Dahab is considered to be one of the Sinai's most treasured diving destinations. It is a place that many have fallen in love with over the years, and return to time & time again. The arrival of international hotel chains has since made the town a popular destination with tourists. Dahab is world-renowned for its windsurfing SCUBA diving, free-diving and snorkelling. Land based activities include camel, horse, jeep and quad bike trips. Mount Sinai is a two hours drive, with

Saint Catherine's Monastery being a popular tourist destination.

The nearby Blue Hole is a submarine sinkhole (a kind of cave), around 130 m deep. There is a shallow opening around 6 m deep, known as 'the saddle', opening out to the sea, and a 26 m long tunnel, known as the arch, the top of which lies at a depth of 56 m. The hole itself and the surrounding area has an abundance of coral and reef fish. The Blue Hole is perfect for deep freediving because the reef around it protects it completely from waves and currents. The surface is always almost flat, and we don't have to swim more than 30 meters from the nearby restaurant in order to find up to 90 meters of depth.

Dahab is served by Sharm el-Sheikh International Airport.

Freedive Dahab Center and Shop

Our freediving school is located in El Fanar Street (N 28 30.012, E 034 31.104) at a short walking distance from the Light House bay in the heart of Dahab. Most of our freediving courses are held at Light House and we have nice hot showers and AC classrooms. On our big front porch (with a nice sitting area for coffee breaks) there are rinsing facilities, outdoors showers and a hanging area for equipment. Our Freediving Shop is connected to the teaching facilities; there you can buy all the necessary freediving equipment such as high quality freediving wetsuits (from Polosub and other brands), freediving fins, monofins, footpockets, noseclips, lanyards, low volume masks of different kinds.
